## *Personal and Professional Service*

RCW Media Services provides quality Media Services for the home and personal use at affordable prices.

**Why Convert to DVD or CD ?**

All tape material has only a defined shelf life and each time you play your precious memories the quality is degraded via the head friction of the player.

Think what a joy it would be to watch those old family home movies that are sitting in your attic or garage! If you like most of us, you don't even have a movie projector anymore, or if you do have one the bulb is burnt out or just plain doesn't work.

We can solve this problem for you! Home Movies on DVD or video make wonderful gifts for family members. It's also a good way to preserve family history for your children and grandchildren -- for the ages.

The best part? Instead of sitting in an old shoebox, your home movies transferred to video are now available to all family members. Transferring your home movies to DVD or video makes it possible to save your videos for your grandchildren. Give them a possibility to see your videos in the future.

Memories DVD's are a great gift idea for Birthdays, Anniversaries and Christmas.

You can honor that special person at Retirement Parties, Wedding Receptions and Baby Showers.

Transferring your video or photos to DVD is a great way to archive family historical pictures and video for generations to come.

It's also a great way to view your video and pictures on your own TV.

We guarantee your satisfaction and look forward to meeting all your needs.

### **The Process**

We do not use stick on labels that can fade and peel after time. We use high quality ink that directly adheres right on the DVD surface.

High grade first class media grade DVDs and professional high quality paper for all the DVD inserts.

The transfer process uses the best DV codec Mpeg 2 capture format, providing the industry's best picture quality preservation during analog-to-DV.

DVD Menu's are created with the best DVD Authoring technique to make sure that your DVD will be playable in most DVD Players.

At RCW Media Services  
we provide media services for you with the utmost  
privacy and quality !

## Optional Services:

Music of your choice, Instrumental, Easy listening, Classical, Country & Western - \$5.00 per DVD.

Additional Titles \$15.00 per DVD

Titles at the beginning of each segment of video text of your choice.

Video correction and enhancement - \$ 25 per hour.

To correct the following

- Evidence of excessive film grain, giving a dirty look to the video.
- Lack of proper color saturation and color balance.
- Background too dark and foreground too bright and washed out looking.
- Flicker, improper framing, film jumping or blank spaces.
- Vertical rolls and drop outs.

Video correction and enhancement will give the video superior detail, full RGB color correction, and chrome and luminance bandwidth expansion, more lines of resolution.

*We transfer your precious photos to DVD format and include the following:*

Packages	Digital Photos	Pictures requiring Scanning
Basic (up to 50 photos)	\$ 25.00	\$ 35.00
Deluxe (51 to 150 photos)	\$ 50.00	\$ 75.00
